Professional Profile

Full Stack Developer with solid experience in the TypeScript stack (React, React Native, Node.js, NestJS). My profile combines high technical ability with **exceptional discipline** and **proven resilience** in overcoming complex challenges. Proactive and focused on **continuous improvement**—demonstrated through managing my own company (Bezlon) and my ongoing studies at UBA. I bring a structured approach and strong **emotional intelligence** to problem-solving in agile environments.

Technical Skills

- **Frontend:** React, React Native, Next.js, Vite, Redux, Zustand, Tailwind CSS, SASS, HTML5, CSS3
 - **Backend:** Node.js, NestJS, Express, TypeScript (Core), Ruby on Rails, PHP, Laravel
 - **Databases:** PostgreSQL, MySQL, MariaDB, SQLite, Sequelize
 - **Cloud & DevOps:** AWS (S3, SES, Lambda), Firebase (Storage, Auth), Docker, Git, GitHub Actions, Vercel
 - **APIs & Tools:** REST API, OpenAPI, Swagger, Jira, GitHub Projects, Trello, Scrum
-

Professional Experience

Software Developer | Devmates (December 2023 – Present)

- Developed and maintained robust, scalable RESTful APIs using **NestJS** and **Express**, implementing database modeling (PostgreSQL, MariaDB) and secure authentication (OAuth, JWT).
- Implemented key cloud services, including **AWS** (S3 for storage, SES for notifications, Lambda for serverless logic) and **Firebase** (Storage, Authentication).
- Built end-to-end cross-platform mobile applications with **React Native**, integrating complex features like geolocation (Google Maps) and advanced state management (Zustand).

- Successfully integrated international (**PayPal**) and local (**Mercado Pago**) payment gateways for e-commerce and ticketing platforms (e.g., "Cabarete Jazz").
- Developed high-performance, interactive user interfaces using **React**, **Next.js**, and **Vite**, leading the frontend for key projects like "Clubnito" and "Ticket Titan."
- Actively participated in the agile development lifecycle (Scrum), using Jira for task management, Docker for containerization, and GitHub Actions for CI/CD.

Founder & Full Stack Developer | Bezlon (Freelance) (December 2022 – Present)

- Managed the entire project lifecycle for clients, including requirements analysis, time estimation, architecture, development, deployment (Vercel), and maintenance.
 - Developed a cross-platform mobile app (**React Native**) and a backend API (**Node.js/Express/SQLite**) for an employee schedule management system, from concept to production.
 - Built and deployed high-performance, SEO-optimized websites and landing pages (e.g., "Patagonia Paradise") using **Next.js** and **React**.
 - Handled direct client communication, translating business requirements and conceptual designs into functional and efficient technical solutions.
-

Education & Training

- **Data Science (Bachelor's Degree)**
 - University of Buenos Aires (UBA) | *(In Progress)*
 - **Software Development Career Path**
 - Platzi | *(March 2023 – March 2024)*
 - *Comprehensive training in software architecture, Python, and databases (NoSQL - MongoDB & relational).*
 - **Full Stack Developer (Bootcamp)**
 - Soy Henry | *(June 2022 – November 2022)*
 - *+800-hour intensive training focused on the PERN stack (PostgreSQL, Express, React, Node.js).*
-

Featured Projects

Bootcamp Final Project (Real Estate Platform) *Academic project developed at Henry (2022)*

- A complete web platform for searching, booking, and reviewing properties.
 - Implemented third-party authentication (Google OAuth) and a payment gateway (Mercado Pago).
 - **Stack:** React, Redux, Node.js, Express, Sequelize, PostgreSQL, and SASS.
-

Languages

- **Spanish:** Native
- **English:** B1 (Intermediate)
